

## Table of contents

- Alessandri, C.: see Alliney, S. et al. 247
- Alliney, S.; Tralli, A.; Alessandri, C.: Boundary variational formulations and numerical solution techniques for unilateral contact problems 247
- Amirouche, F. M. L.: see Ider, S. K. 327
- Antes, H.; Meise, Th.: Coping with non-convex domains in the boundary element analysis 47
- Aparecido, J. B.; Cotta, R. M.: Laminar flow inside hexagonal ducts 93
- Arnold, S. M.; Tan, H. Q.: Symbolic derivation of potential based constitutive equations 237
- Başar, Y.; Eller, C.; Krätzig, W. B.: Finite element procedures for the nonlinear dynamic stability analysis of arbitrary shell structures 157
- Bernadou, M.; Trounev, P.: Approximation of general shell problems by flat plate elements. Part 2 359
- Beskos, D. E.: see Dasgupta, B. et al. 129
- Blum, H.; Rannacher, R.: On mixed finite element methods in plate bending analysis. Part 1 221
- Braaten, M. E.; Patankar, S. V.: Fully coupled solution of the equations for incompressible recirculating flows using a penalty-function finite-difference formulation 143
- Buchanan, G. R.: see Sallah, M. 167
- Carrico, C. B.: see Koshizuka, S. et al. 65
- Chan, W. S.; Ochoa, O. O.: Delamination characterization of laminates under tension, bending and torsion loads 393
- Charalambakis, N. C.: see Rigatos, A. P. 463
- Cheung, Y. K.: see Wang, Y. H. et al. 293
- Coleman, C. J.: A boundary element approach to some nonlinear equations from fluid mechanics 197
- Costabel, M.; Ervin, V. J.; Stephan, E. P.: Experimental asymptotic convergence of the collocation method for boundary integral equations on polygons governing Laplace's equation 271
- Cotta, R. M.: see Aparecido, J. B. 93
- Dasgupta, B.; Beskos, D. E.; Vardoulakis, O. G.: Vibration isolation using open or filled trenches. Part 2 129
- Drummond, C. K.; Lyman, F. A.: Mass transfer from a sphere in an oscillating flow with zero mean velocity 315
- Estorff, O. von; Prabucki, M. J.: Dynamic response in the time domain by coupled boundary and finite elements 35
- Eller, C.: see Başar, Y. et al. 157
- Ervin, V. J.: see Costabel, M. et al. 271
- Fernando, M. S. U. K.; Modi, V. J.: A numerical analysis of the unsteady flow past bluff bodies 11
- Folias, E. S.; Wang, J.-J.: On the three-dimensional stress field around a circular hole in a plate of arbitrary thickness 379
- Gonsalves, I. R.; Shippy, D. J.; Rizzo, F. J.: Direct boundary integral equations for elastodynamics in 3-D half-spaces 279
- Gresho, P. M.: Comments on "A conjugate-residual—FEM for incompressible viscous flow analysis" by Y. Eguchi, G. Yagawa and L. Fuchs 203
- Gu, R. J.: Boundary integral equation method for elastic beams in frictionless contact problems 191
- Hahn, G. T.: see Kumar, A. M. et al. 309
- Higashi, T.: see Morimoto, Y. et al. 1
- Ider, S. K.; Amirouche, F. M. L.: Stability analysis of constrained multibody systems 327
- Jameson, A.: see McCartin, B. J. 77
- Kapania, R. K.: A pseudo-spectral solution of 2-parameter Bratu's equation 55
- Kikuchi, M.: see Miyamoto, H. et al. 423
- Kollegger, J.; Mehlhorn, G.: Material model for the analysis of reinforced concrete surface structures 341
- Koseki, H.: see Yamamoto, S. et al. 101
- Koshizuka, S.; Carrico, C. B.; Lomperski, S. W.; Oka, Y.; Togo, Y.: Min-max truncation: An accurate and stable filtering method for difference calculation of convection 65
- Krätzig, W. B.: see Başar, Y. et al. 157
- Kubo, M.: see Miyamoto, H. et al. 423
- Kumar, A. M.; Rubin, C. A.; Hahn, G. T.: Analysis of the effects of rigid and elastic boundary conditions in the elastic-plastic finite element analysis of rolling contact 309
- Leguillon, D.; Sanchez-Palencia, E.: Approximation of a two dimensional problem of junctions 435
- Lig, L.-Y.: Improved nonlinear buckling analysis of structures 457
- Lomperski, S. W.: see Koshizuka, S. et al. 65
- Lyman, F. A.: see Drummond, C. K. 315
- McCartin, B. J.; Jameson, A.: Numerical solution of nonlinear hyperbolic conservation laws using exponential splines 77
- Mehlhorn, G.: see Kollegger, J. 341
- Meise, Th.: see Antes, H. 47
- Miyamoto, H.; Kikuchi, M.; Kubo, M.: Some contribution to process zone fracture mechanics 423
- Modi, V. J.: see Fernando, M. S. U. K. 11
- Morimoto, Y.; Seguchi, Y.; Higashi, T.: Strain analysis by mismatch moire method and grid method using Fourier transform 1
- Ochoa, O. O.: see Chan, W. S. 393
- Oka, Y.: see Koshizuka, S. et al. 65
- Patankar, S. V.: see Braaten, M. E. 143
- Phan-Thien, N.: see Tran-Cong, T. et al. 205
- Prabucki, M. J.: see Estorff, O. von 35
- Rannacher, R.: see Blum, H. 221
- Rigatos, A. P.; Charalambakis, N. C.: Stability conditions and numerical solutions on oscillatory thermoviscous shearing 463
- Rizzo, F. J.: see Gonsalves, I. R. et al. 279
- Rubin, C. A.: see Kumar, A. M. et al. 309
- Sallah, M.; Buchanan, G. R.: Some simplified methods for infinite elements 167
- Sanchez-Palencia, E.: see Leguillon, D. 435
- Sato, K.: see Yamamoto, S. et al. 101
- Seguchi, Y.: see Morimoto, Y. et al. 1
- Shippy, D. J.: see Gonsalves, I. R. et al. 279
- Stallybrass, M. P.: On the equivalence of integral formulations for certain exterior and interior boundary value problems in mechanics 173
- Stephan, E. P.: see Costabel, M. et al. 271
- Szmelter, J.: see Wu, J. et al. 259
- Tan, H. Q.: see Arnold, S. M. 237
- Telega, J. J.: Homogenization of fissured elastic solids in the presence of unilateral conditions and friction 109
- Togo, Y.: see Koshizuka, S. et al. 65

- Torkamani, M. A. M.: Elasto-plastic analysis for cyclic loading and tresca yield condition 407
- Tralli, A.: see Alliney, S. et al. 247
- Tran-Cong, T.; Zheng, R.; Phan-Thien, N.: Boundary element method for finite elasticity 205
- Trouvé, P.: see Bernadou, M. 359
- Vardoulakis, O. G.: see Dasgupta, B. et al. 129
- Wang, J.-J.: see Folias, E. S. 379
- Wang, Y. H.; Cheung, Y. K.; Woo, C. W.: The plastic zone and limit load of centre-cracked plate by the weighted residual method and elasto-viscoplastic theory 293
- Woo, C. W.: see Wang, Y. H. et al. 293
- Wu, J.; Zhu, J. Z.; Szmelter, J.; Zienkiewicz, J. C.: Error estimation and adaptivity in Navier-Stokes incompressible flows 259
- Yamamoto, S.; Sato, K.; Koseki, H.: A study on lateral impact of Timoshenko beam 101
- Zienkiewicz, O. C.: see Wu, J. et al. 259
- Zhu, J. Z.: see Wu, J. et al. 259
- Zheng, R.: see Tran-Cong, T. et al. 205
